DETAILED ACTION

This action is responsive to applicant's after-final amendment of 10/4/2010, which has been entered into the electronic file of record.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to teach or fairly suggest, either alone or in combination, a method of manufacturing a security thread or strip introducible in banknotes, said security thread or strip having a microchip, comprising the steps of: providing a support material on a substrate to form a thread or strip; softening said support material, by heating said support material; depositing a microchip on or at least partly in the softened support material; and curing said support material, by cooling said support material.

In the previous action, claims 1-8 had been allowed while claims 9-17 had been rejected. Claims 9-17 have now been cancelled, leaving only allowable claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
